

RELIM VRK ETA

Our highest-performing filter: synthetic, of course

NEW

Durable, fully-synthetic micro spunbound.

Harmless to health due to the absence of glass fibres.

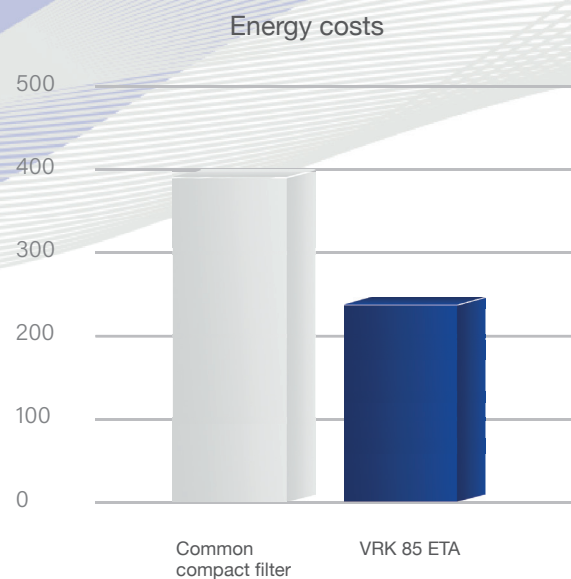

Minimized energy consumption of the HVAC system - maximum cost savings.

Available in ISO ePM1 65 % and 85 %.

With the new fine dust compact filters in the RELIM VRK ETA series, Kalthoff has created a synthetic solution for energy-efficient system operation. With a very low pressure drop level and ISO ePM1-rated filters, Kalthoff sets new standards in the market with the RELIM VRK ETA series.

Your partner for filtration technology.
